Srinivas B.

Java Developer

Hi! I am Srinivas, a Java engineer who specializes in J2EE, Web Services, Spring, Hibernate, Progress BPM, Reporting tools like ESpreadsheet, BirtViewer and UI frameworks like JQuery, JSF, and bootstrap. I have recently started working on projects using Django and React JS. I have done projects in the domains of healthcare, finance, and utilities. I have taken courses in Cloud Computing and Big Data.

What sets me apart from other engineers is a drive to take up challenges in areas or domains I'm new to. I also am a good listener. I listen to ideas stated by each and every team member with an open mind.

Skill Tags: JSX, nodejs, JQuery, XML, XSLT, SOAP, REST, Java, Spring, SQL, Actuate Spreadsheet, Autosys, DROOLS, Cocoon, PHP

Experience

JSX Parser / Learning Dollars / Remote Python Developer

APRIL 2018, Palo Alto, CA
